Career Services
Laguna College of Art + Design (LCAD) provides its students with the education and skill sets necessary to succeed in today's complex and changing creative job markets. Additionally, LCAD partners with industry leaders to provide internships that enable students to obtain valuable hands-on experiences in their areas of interest. LCAD's Career Services office actively seeks employment opportunities for students, graduates and alumni. LCAD students benefit from strong industry contacts. To assist students while they are in school, part-time job opportunities are posted regularly on the intranet Job Board.
