4-Week Summer Program | Monday, July 8 - Thursday, August 1, 2023
8am-Noon | Monday-Thursday | Tuition: \$850

FD110: Fundamentals of Drawing (2 credits):

This course is an introduction to drawing, covering the basic technical skills and materials necessary to create convincing representations of simple or complex still-life forms. Students are introduced to composition and the concepts of creating volume and space utilizing lines as measurement, construction drawing, and value systems. Materials include graphite and charcoal.

FD111: Fundamentals of Figure Drawing (2 credits):

This course is an introduction to drawing the human form. Students work from the draped and undraped model. Emphasis is on accurate representation of the figure utilizing observation with the elements of gesture, measurement, construction line, volume, proportion, and surface anatomy. Materials include graphite and charcoal.

FD155: Fundamentals of Story (Animation) (3 credits):

This course is an exploration of story structure and the incorporation of classic visual storytelling techniques / archetypes in the medium of film, television, and music videos. The course will explore the basics in creating short scripts and storyboards.

Note: This course will run 8am-3pm with a 1-hour lunch break.

FD170: Intro to 3D Modeling for Games (2 credits):

This course introduces the techniques used for 3D modeling, starting from the ground up. Students will be introduced to a modeling program known as 3D Studio Max, and will learn how to navigate and use the program to model 3D props and assets. Students will also learn how to use UV unwrapping techniques to apply textures to their models, and will be able to implement them into a game engine to see how their props would look in an in-game view. This course gives students the opportunity to work through a 3D artist's pipeline and learn that 3D modeling is a very fun and technical way of creating art for games!

GD204: Branding, Illustration, Packaging Design (2 credits)

This hands-on creative design course includes visual design skills, brand design and packaging. Whether you choose to use illustration or photography as your medium you will learn to build a brand identity, style guide and make a physical packaging prototype for a product you choose. In LCAD's Graphic Design + Digital Media studios you will learn to use the Adobe creative suite including Photoshop, Illustrator, Dimension. Through design discovery, development and ideation your final outcomes will follow a proven creative process that you can use again in the future. This course will be taught by the LCAD Graphic Design + Digital Media department chair, Dana Herkelrath.

Note: On-campus housing is not available for the summer Pre-College program. Food options and availability will be limited during the summer. Students should plan to bring food daily. The final day to drop a course for a refund is Friday, July 5, 2024.
